New Delhi, India · open to roles anywhere

Product Engineer & UX Strategist · Founder & CPO, DumbMoney · targeting Product Manager / Technical PM roles

Product-minded generalist who writes the PRD and then builds what it says. At MapMyIndia I own frontend, UI/UX and de-facto product management on enterprise fleet and telematics platforms used by 200,000+ people; on the side I founded DumbMoney, a coupon platform for Indian shoppers, and run Smaak.ux, a product and design studio with 10+ clients. AI-native: I prototype and ship with AI coding assistants and use Claude, Gemini and ChatGPT for research.

EXPERIENCE

MapMyIndia [Gtropy] — Associate Software Developer, Product & Platform — Sep 2024 – present · New Delhi

- Built and scaled enterprise fleet & telematics platforms: **Vahan Shakti** (government, **200,000+ users**), OEM platforms (20,000+ users), fleet operators (10,000+ vehicles). 5+ live production projects.
- **Mappls Shop** (live, shop.mappls.com): replaced a fully manual billing process with automated billing; owned the PRD, UI/UX and cross-functional delivery. Live and generating revenue; **30+ users**; billing and accounts teams **80% more productive**.
- Authored full PRDs (problem statements, user stories, acceptance criteria, edge cases); de-facto product/project manager across teams.
- Client deliveries: a dashboard for **Toyota** covering non-communicating devices; the DMS, ADAS and driver sections of Intouch for **VinFast** and **SM Green**.
- Defined vehicle status logic (moving/stopped/idle/delayed/offline), map UX (rotation, fit-to-route, playback) and the alarm, geofence and ticketing workflows.
- ~40% performance improvement on data-heavy dashboards via caching, RxJS state management and API optimisation; owned operational & analytics dashboards (vehicle health, trips, delays, alerts, compliance).
- Active: Technician App (field operations), IOCL GeoRTD (30,000+ routes into S3).

DumbMoney — Founder & Chief Product Officer · dumbmoney.in ↗ — Live · with co-founder Akshat Somani

- Coupon and deals platform for Indian online shoppers: verified codes across beauty, fashion, electronics, travel and food, browsable by store or category, no signup.
- Own the product standard — a code that works, not the longest list: automated expiry and duplicate checks, then human review, before any code goes live.

Smaak.ux — Founder & Product Designer (freelance) — 2023 – present · Remote

- Product and design studio, 10+ clients across SaaS, FMCG, creator brands, e-commerce, home décor and services. Website UI, content, branding and market strategy for **Sunder Masala** and **Wolf Casa**; also Atmos, Mintair, Ravenouxs, Lean Multiverse, Ekal, Urban Livin, Sorted Blinds (Australia), Posh Dikur.

Earlier: Wise Work — Full Stack Intern (Feb–Dec 2023; React, REST integration) · Datamatics — R&D Project Intern (Jun–Aug 2023; AI-driven OCR, +30% extraction accuracy; UX research, +15% task completion) · Green Monk Energy — Chennai Lead, Student Brand Ambassador (2022–23) · Tech Analogy — Graphic Design Intern (2023).

SELECTED SHIPPED WORK

Vahan Shakti — live vehicle tracking & analytics; map components, clustering, heatmaps. 200,000+ users, Play Store.

Locate — independently led frontend; real-time monitoring of 20,000+ vehicles across Maharashtra.

Intouch — cross-platform logistics app, optimised for 10,000+ active vehicles, scaling to 50,000. Google Play ↗

Indane Yatra Mitra (IOCL) — LPG tanker fleet tracking: safety alarms, geofencing, route playback, role-based access. Google Play ↗

INDEPENDENT CASE STUDIES & WRITING

Product/UX analyses of products I don't work on: Linear vs Jira · the AI code-assistant adoption paradox · Apple ecosystem fragmentation · Flipkart product discovery · Uber driver retention · the logistics visibility gap. Essays on Medium and dumbmoney.in.

EDUCATION

B.Tech, Computer Science Engineering
SRM Institute of Science and Technology, Chennai · CGPA 8.76/10
Aug 2020 – Jun 2024

LEADERSHIP

- **Technical Convener**, Directorate of Student Affairs, SRMIST (2022–24) — directed *Milan*, a national cultural festival with 20,000+ attendees; led a 50+ member cross-functional team.
- **Vice President**, Alexa Developers SRM (2020–24) — 10+ technical events and hackathons; flagship UI/UX workshop drew 300+ participants.
- Won the GitHub SRM Ideathon for a product concept.

SKILLS

PRODUCT
PRD writing, user story mapping, roadmapping, prioritisation, A/B testing, competitive analysis, Agile/Scrum, stakeholder management, SEO & growth

AI
Claude, Gemini, ChatGPT — research, generative AI, AI-assisted prototyping (vibe coding)

DESIGN
Figma, Spline, Adobe Suite — wireframing, prototyping, UX research, user flows, interaction design, usability testing

ENGINEERING
TypeScript, JavaScript, React, Next.js, Angular, Ionic, Node.js, Nest.js, Spring Boot, Java, Python, RxJS, D3.js, Three.js, Mappls SDK, REST APIs, MongoDB, MySQL, AWS S3, Git

CERTIFICATIONS

Technical Product Management — Aha!
AWS Academy ML Foundations — Jun 2023
AWS Academy Cloud Foundations — May 2023
Google UX Design — 4 courses (foundations → research) — Jan–Mar 2023
Blockchain Basics — University at Buffalo — Nov 2022
