SUMMARY

Frontend developer and founder. At MapMyIndia I build and ship product features for enterprise fleet platforms used by 200,000+ people, working from PRD through to release. In 2026 I founded DumbMoney (dumbmoney.in), a coupon and cashback platform I built and took to profitability on my own. Through freelance work I've also handled brand narrative, brand IP, and websites for startups and creator brands. I work mainly in React, Next.js, and Angular, and use AI tools to design and prototype faster.

EXPERIENCE

Software Developer — Product & Platform · GTROPY · MapMyIndia *Sep 2024 – Present | New Delhi*

- **Shipped to 200,000+ users:** Owned end-to-end requirements, UX, and delivery for the Intouch Pro app and IOCL platform (26,000+ vehicle fleet); authored full PRDs—problem statements, user stories, acceptance criteria, edge cases.
- **Drove real-time performance:** Defined performance requirements and partnered with engineering on caching and marker-clustering (RxJS, Mappls SDK)—sustaining 60FPS under peak load and ~40% faster dashboards, enabling live fleet decisions without lag.
- **Aligned stakeholders to ship:** Facilitated Agile/Scrum across design, engineering, and ops to prioritise and deliver features for Vahan Shakti (200,000+ users) and admin dashboards.
- **Secured access at scale:** Defined multi-tier RBAC for role-specific data visibility across 200,000+ users; designed smart-caching protocols for large-scale telemetry with zero interface latency.

Founder · DumbMoney (dumbmoney.in) *2026 – Present | Remote*

- **Built & launched from zero:** Founded an India coupon & cashback platform—owning product, UX, branding, SEO/growth, and affiliate monetisation end to end across 37+ partner brands (Mamaearth, boAt, Nykaa, Myntra) and 1,710+ verified deals.
- **Bootstrapped to profitability:** Built a content-rich, SEO-optimised platform solo using AI-accelerated workflows; reached profitability within the first quarter via affiliate revenue. Live at [dumbmoney.in](#) ↗.

Founder & Product Lead · Smaak.ux (Independent Studio) *2023 – Present | Remote*

- **Delivered for 10+ clients:** Product & design studio—ran discovery and MVP scoping with founders; shipped branding, investor pitch decks, and responsive web products across SaaS, e-commerce, and creator brands (incl. a 600K+ follower brand).

PROJECTS (LIVE ON PLAY STORE)

- **Vahan Shakti — AIS 140 Fleet Tracking:** Real-time vehicle-tracking platform for fleet operators; built React map components for live location, custom markers, route plotting, clustering, and heatmaps with a dashboard for speed, route history, and alerts. [Play Store](#) ↗
- **Indane Yatra Mitra — IOCL:** Enterprise fleet-tracking platform for IOCL LPG tanker operations: live tracking, safety alarms, geofencing, route playback, and analytics dashboards with role-based access. [Play Store](#) ↗
- **Mappls Intouch:** Secure fleet tracking and monitoring app: real-time vehicle visibility, safety-event alerts, trip history, and fleet dashboards across web and mobile. [Play Store](#) ↗

LEADERSHIP

Technical Convener · Directorate of Student Affairs · SRMIST *2022 – 2024 | Chennai*

- Directed 'Milan'—a national cultural festival with 20,000+ attendees; managed 50+ member cross-functional team across logistics, tech, and marketing.

Vice President · Alexa Developers SRM *2020 – 2024 | Chennai*

- Led 10+ major technical events including hackathons; flagship UI/UX workshop drew 300+ participants. Won GitHub SRM Ideathon for innovative product concept.
