New Delhi, India · English, Hindi

Product-minded generalist who writes the PRD and then builds what it says. At MapMyIndia I own frontend, UI/UX and de-facto product management on enterprise fleet and telematics platforms used by 200,000+ people; on the side I founded DumbMoney, a coupon platform for Indian shoppers, and run Smaak.ux, a product and design studio with 10+ clients.

EXPERIENCE

MapMyIndia [Gtropy] — Associate Software Developer, Product & Platform Sep 2024 – present · New Delhi

- Built and scaled enterprise fleet & telematics platforms: **Vahan Shakti** (government, **200,000+ users**), OEM platforms (20,000+ users), fleet operators (10,000+ vehicles). 5+ live production projects.
- Authored full PRDs — problem statements, user stories, acceptance criteria, edge cases — and acted as de-facto product/project manager across cross-functional teams.
- Defined vehicle status logic (moving / stopped / idle / delayed / offline), map UX (rotation, fit-to-route, route playback) and the alarm, geofence and ticketing workflows.
- ~40% performance improvement on data-heavy dashboards via caching, RxJS state management and API optimisation; owned operational & analytics dashboards (vehicle health, trips, delays, alerts, compliance).
- Active: Technician App (end-to-end field operations), Mappls Shop Admin automated billing (replacing a manual process), IOCL GeoRTD pipeline (30,000+ routes into S3).

DumbMoney — Founder & Chief Product Officer · [dumbmoney.in](#) Live · with co-founder Akshat Somani

- Coupon and deals platform for Indian online shoppers: verified codes across beauty, fashion, electronics, travel and food, browsable by store or category, no signup.
- Own the product standard — a code that works, not the longest list: automated expiry and duplicate checks, then human review, before any code goes live; every coupon attributed to the founder who checked it.

Smaak.ux — Founder & Product Designer (freelance) 2023 – present · Remote

- Product and design studio, 10+ clients across SaaS, creator brands, e-commerce, home décor and services — Atmos, Mintair, Ravenoux, Lean Multiverse (creator brand, 600K+ followers), Ekal, Urban Livin, Sorted Blinds (Australia), Posh Dikur.

Earlier: Wise Work — Full Stack Intern (Feb–Dec 2023; React, REST integration) · Datamatics — R&D Project Intern (Jun–Aug 2023; AI-driven OCR, +30% extraction accuracy; UX research, +15% task completion) · Green Monk Energy — Chennai Lead, Student Brand Ambassador (2022–23) · Tech Analogy — Graphic Design Intern (2023).

SELECTED SHIPPED WORK

Vahan Shakti — live vehicle tracking & analytics; map components, clustering, heatmaps. **200,000+ users**, Play Store.

Locate — independently led frontend; real-time monitoring of **20,000+** vehicles across Maharashtra.

Control Tower — real-time alert management & ticketing; map-based trip analysis.

Intouch — cross-platform logistics app, optimised for **10,000+** active vehicles, scaling to 50,000. [Google Play](#)

Indane Yatra Mitra (IOCL) — LPG tanker fleet tracking: safety alarms, geofencing, route playback, role-based access. [Google Play](#)

FASTag Platform — full-stack registration and multi-vehicle management with OTP auth.

INDEPENDENT CASE STUDIES & WRITING

Product/UX analyses of products I don't work on: Linear vs Jira · the AI code-assistant adoption paradox · Apple ecosystem fragmentation · Flipkart product discovery · Uber driver retention · the logistics visibility gap. Essays and a case study on Medium; guides on dumbmoney.in.

EDUCATION

B.Tech, Computer Science Engineering

SRM Institute of Science and Technology, Chennai · CGPA 8.76/10
Aug 2020 – Jun 2024

LEADERSHIP

- Technical Convener**, Directorate of Student Affairs, SRMIST (2022–24) — directed *Milan*, a national cultural festival with 20,000+ attendees; led a 50+ member cross-functional team.
- Vice President**, Alexa Developers SRM (2020–24) — 10+ technical events and hackathons; flagship UI/UX workshop drew 300+ participants.
- Won the GitHub SRM Ideathon for a product concept.
